

Слышь, я не могу. Я не могу. Я не могу. Я не могу. Я не могу.

like I'm just selling those hot book every now and then. So why is it transition, why is it just as much as it sounds today?

this part is his first fish nope alright

It's not just for us to be explorers or rich. We can support this institution. But also when we come up with this kind of research and findings that we've found.

and the law wishes will really want to support such kind of community. But also, we realize that in heavy reliance on diamonds, we are...

And therefore we felt that we could sign in the amount of sign that we have if we are able to tap into that potential and we see how it can be utilized in...

Finally we are accepting doing this. It was necessary for us to have a pick-up of assessment, collection, and community.

...and people that are coming from different communities, ...including the host community of those who are highly received ...and refugee particularly for so many.

very high in the upcoming now and then but also in the end we are up like to know of IEP International as I speak to you there are some states just December

between the temperature where we are now this is free of worry. So really it's actually

just most of the time for us to speak to the CSO as well as here.

On June 24, 2019 достигing antokah are Tourists Twoile. in hunt one prevising

Bundestag par agreement

je l'ai dit on a de la vie

You can't get out of here. You can't get out of here. You can't get out of here.

So who's got to get the situation where those institutions that say we, we have to say what else are needed to do for these programs that are going to be...

with gender-responsive policies that are addressing a number of issues that have been identified. A number of findings came out of the data.

...and people still rely on firewood and charcoal. And we all know what that means. Again, there is the limited solar axis and many times you make a...

So, it's still very expensive, it's not worth it. I don't know if this is the person I'm continuing asking. If we are not being allowed to...

Why are these equipments becoming very expensive? So that is one of the areas that you need to be noted. But also electricity is still a challenge in science with animation making you...

We can see it from that area to this other one when we are putting shadows of using this element. These are key ask you also that you need to explore and see how

...and we can also engage with a backup game, booking solution, which is the legendary absence. In terms of gender impacts, we really consider...

at least if you talk about sharpening firelock or everything else that's going to be used and that is it so that it I think it's a renovation about that it also will show you

as well as the level of expertise to run public safety check-up audits. We noted that also there is exposure to insecurity during

also the areas are also this area is visited and there are increased decreases of

I think you're being reported. And that in itself does not keep women safe, but she clearly has real love to them. It makes them feel better, and that's the part of us, and for women.
